HEAVY LOSSES IN STOCK MARKET

Prices Melt Away While Securities Are Thrown Over in Rush to Sell and New Bottom Records Are Made.

After stocks had been smashed to lower records and gilt-edged securities thrown overboard in a wild selling swirl to-day the market rallied a bit this on, then again gave way and closed with heavy losses all around, the

extreme. Not an issue escaped in the orive, which was furthered by sensaclonal stories of leading houses being in trouble. All of these reports were declared groundless, but the liquidation unrestricted.

STEEL'S SLUMP AND CUT IN TRACTIONS.

United States Steel common has dropped 40 points in the market since its boom days in April, 1901, when the stock reached its highest price, 55. It fell to-day to 15.

The loss to Steel preferred has been quite as sensational, it having sold at 101 7-8 in April, 1901. To-day its price was 59 1-2, a loss of 42 3-8. Brooklyn Rapid Transit was up to 137 in 1899. It sold to-day at 29 1-4,

its lowest record. Metropolitan Street Railway's highest price was 269 1-2, reached in 1899. It touched its lowest figure, 100, in to-day's trading.

The doulings were on an expansive scale, the total sales being 389,000 shares, while the sentiment was bearish in the extreme. Not an issue escential in the PARKS GAINS FORCE

President Eidlitz Declares There Will Be No Let-Up in Fight **Against Methods of Victorious** Walking Delegate.

The labor war in New York is to be more bitter than ever unless Sam Parks is repudiated, according to President Charles L. Eidlitz, of the Building Trades Employers' Association. While the walking delegate is fighting his way through one victory after another in Kansas City at the convention of the International Association of Structural Ironworkers, the employers in this city are preparing to fight the issue to

It has been said recently that the em ployers are weakening and are dismayed because of the enormous losses suffered on account of the lockout that has been in force since early spring, but this is refuted by Mr. Eidlitz.
"While it is true that building con-
